

INVEST IN THE FUTURE

Fall 2026 Corporate Sponsorship Opportunity

Black Youth in STEM • Black Youth in AI

Help equip the next generation with skills, confidence, mentorship and real-world exposure in two fields shaping the future.

Emole Futures Initiative is a Canadian not-for-profit organization advancing education and leadership development for Black youth and other underrepresented youth. Our programs combine practical learning, mentorship, career exposure and leadership development to help young people thrive in the modern economy.

BLACK YOUTH IN STEM

September 2026 to May 2027

Hands-on STEM learning, experimentation, problem-solving and exposure to education and career pathways.

BLACK YOUTH IN AI

September 2026 to April 2027

AI literacy, practical tools, project-based learning, mentorship and exposure to future career pathways.

EMPOWERING YOUTH. BUILDING FUTURES.

Why Your Support Matters

Talent is everywhere. Access is not. Your sponsorship helps young people gain practical skills, mentors, networks and experiences that can influence future education and career choices.

Your investment helps turn curiosity into capability, and capability into opportunity.

Funding strengthens the learning experience and helps reduce barriers to participation.

What Funding Will Support

Hands-on learning STEM kits, experiment materials, AI tools, software access and project supplies.	Expert instruction & mentorship Facilitators, mentors, guest speakers and professionals who expose learners to real career pathways.
Student projects Materials and resources that allow youth to build, test, present and improve real projects.	Access & participation Bursaries and participation supports that help reduce financial barriers for families.
Career & industry exposure Industry visits, career sessions and opportunities to connect learning with real workplaces.	Program delivery & impact Learning platforms, program coordination, evaluation and impact reporting to strengthen quality and accountability.

What We Are Building

Black Youth in STEM | A sustained, hands-on program that develops scientific curiosity, problem-solving and exposure to STEM pathways.

Black Youth in AI | A practical AI program focused on literacy, tools, project-based learning, mentorship and future-of-work readiness.

Momentum Already Underway

Sponsors are not investing in an idea on paper. Emole is already creating practical, real-world learning experiences for youth and building relationships that can expand those opportunities.

FROM CLASSROOM TO REAL WORLD

Our current Black Youth in Business program demonstrates the model: learn practical skills, meet leaders, enter workplaces and apply learning to real challenges.

BLACK YOUTH IN BUSINESS

SUMMER 2026 | GRADES 9–12

Learners are developing practical skills in entrepreneurship, operations, leadership, marketing and communication.

Industry Visit: Apogee Ceramics Inc.

Learners met CEO Ella, toured the manufacturing floor and saw how a successful business brings people, processes, quality and customers together.

Representation matters. Meeting a successful Black woman business leader helped learners see new possibilities for their own futures.

GROWING INSTITUTIONAL CONNECTIONS

QUEEN'S UNIVERSITY

Emole is engaging with schools and faculties at Queen's University to explore opportunities that strengthen youth learning, mentorship and future pathways.

- School of Graduate Studies
- Faculty of Arts & Science
- Faculty of Education
- Faculty of Engineering

These conversations are at different stages of development and reflect growing interest in expanding opportunity for youth.

BYIB learners at Apogee Ceramics Inc.: seeing business operations, leadership and industry learning in action.

WHY THIS MATTERS TO SPONSORS

Your support joins a growing ecosystem of educators, universities, entrepreneurs and employers helping young people build skills, confidence, networks and real-world exposure.

Four Ways to Invest

Choose a level that fits your organization's community investment goals. Customized, multi-year and in-kind partnerships can also be discussed.

COMMUNITY SUPPORTER

\$500

Help put practical learning resources directly into students' hands.

- Recognition as a Fall 2026 Community Supporter
- Organization name on Emole sponsor recognition materials
- Recognition in a sponsor thank-you post

PATHWAY SUPPORTER

\$1,000

Help equip learners with the tools and materials they need to participate fully.

- All Community Supporter recognition
- Logo placement on select sponsor materials
- Post-program impact update

FUTURE BUILDER

\$3,000

Support project-based learning, mentorship, career exposure and learner access.

- All Pathway Supporter recognition
- Dedicated social media recognition
- Opportunity to participate in a career or mentorship session, subject to program fit
- Post-program video interview with sponsor, to be posted on social media channel

LEAD IMPACT PARTNER \$5,000

Make a major investment in the delivery and reach of Emole's Fall 2026 programming.

- All Future Builder recognition
- Prominent recognition as a Lead Fall Program Sponsor
- Enhanced logo visibility on select program communications
- Opportunity to support an industry session, site visit or employee engagement activity, by mutual agreement
- Sponsor impact briefing and year-end recognition, and, Sponsor Logo on webpage for a year

Prefer to support a specific need? We also welcome equipment, software, employee mentors, career speakers, venue support and other in-kind contributions.

Become a Fall 2026 Program Partner

A partnership with Emole gives your organization a practical way to invest in future talent, community opportunity and a more inclusive pipeline into technology, science and business. Your support helps us create learning experiences that are practical, relevant and connected to real opportunities.

SPONSOR. MENTOR. OPEN A DOOR.

Together, we can illuminate pathways and build future leaders.

About Emole Futures Initiative

Emole Futures Initiative is a Canadian not-for-profit organization dedicated to advancing education and leadership development for youth, particularly Black youth and other underrepresented communities. “Emole” is derived from the Yoruba word Imole, meaning light. Our mission is to equip youth with the skills, mentorship, networks and leadership opportunities needed to thrive in business, artificial intelligence and STEM.

OUR FOCUS • Practical skills • Mentorship & networks • Leadership & confidence • Career and industry exposure	PARTNERSHIP CONTACT Emole Futures Initiative Kingston, Ontario, Canada www.emolefutures.org contact@emolefutures.org 613-893-3724 FOLLOW OUR WORK LinkedIn Skool emolefutures.org
